

Established in 1965, Yapı Merkezi is the regional leader in turn-key road and rail construction projects. Yapı Merkezi IDIS is a wholly owned subsidiary of Yapı Merkezi Holding and specialized in design, development, integration, and application of signalling, telecommunication, and other E&M systems.

We are expanding the activities at our Department of Industry and Technology approved R&D Centre in Istanbul and looking for productive and enthusiastic young talents to join our team.
